GUN DOG[®]

THE MAGAZINE OF UPLAND BIRD AND WATERFOWL DOGS

For more than three and a half decades **GUN DOG** has reigned as North America's premier sporting dog publication, the only magazine devoted to all breeds of sporting dogs—pointers, setters, retrievers, versatiles and spaniels. No other magazine provides such comprehensive coverage of these hard-driving performers, and no other magazine appeals to a wider demographic of upland gamebird and waterfowl hunters.

These are people who spend a great amount of time—and money—living with, training and hunting over their dogs. To enhance this relationship, each issue of **GUN DOG** features breed articles, the latest information on canine medicine, nutrition and new products, hunting stories emphasizing the dog's role in the field, and numerous training articles showcasing the proven techniques and equipment developed and utilized by professional and amateur trainers throughout the country.

SHOTGUN REPORT

An in-depth, two-page illustrated review of a new model of shotgun, written by noted authorities like John M. Taylor, Steve Gash, Brad Fitzpatrick and others. Includes a specifications chart and corresponding information on the brand of ammo and loads used during tests.

GUNS & GEAR

Compiled by the publisher and the editors, this page showcases the newest products of our advertisers—guns, loads, e-collars and other training equipment, training DVDs, dog food, nutrition supplements, hunting apparel, etc.

SNAP SHOTS

Everyone wants to see his or her dog in the magazine, and this department offers that chance—it's a favorite with readers because it's comprised entirely of their photos of their dogs and puppies at home or in the field, plus a brief "bio" of each.

VETERINARY CLINIC

John Holcomb, DVM, answers reader questions regarding various ailments and injuries suffered by sporting dogs; many of his responses include specific treatment recommendations and the names of related products—from flea and tick control to heartworm preventative to arthritis relief to suggested foods and dietary supplements for all life stages and performance levels.

NOTES FROM THE FIELD

Well-known professional trainer Bob West discusses various training techniques, hunting strategies, health concerns, feeding recommendations and travel tips based on his many years of experience with all breeds of sporting dogs.

The Affinity is a hard-working Italian auto without a steep price tag.

The new Affinity has been called "the most beautiful and well-balanced shotgun ever made" by the author of this article. It's a 12-gauge, semi-automatic shotgun with a 28-inch barrel and a 2 1/2-inch chamber. It's a hard-working Italian auto without a steep price tag. QUESTION: In my area there seem to be a lot of raccoons and coyotes and their attacks are becoming a problem for my dog's camp with wildlife. I don't think we have had any problem yet. I have two young Labradors.

ANSWER: Coyotes can carry many parasites that can infect our hunting dogs. Basically all of the intestinal and external parasites are common. Coyotes are a big reservoir for heartworms. Of course these would have to be spread by mosquitoes for the life cycle to complete.

Notes from the Field | By Bob West

Finding Downed Birds

Recovering crippled game is our obligation.

KAREN DILL: It's a sad time for us when we find a downed bird. It's a sad time for us when we find a downed bird. It's a sad time for us when we find a downed bird. It's a sad time for us when we find a downed bird.

PROPLAN

NUTRITION THAT PERFORMS

When dogs will run like the wind, it's because they're healthy. It's because they're healthy. It's because they're healthy. It's because they're healthy.

SPOTLIGHT

A two-page illustrated profile of one of the “giants” in the modern sporting dog world—an outstanding breeder, trainer or marketer, an innovative product designer, a cutting edge shotgun developer, a leading ammunition manufacturer or a top-drawer outfitter.

SPORTING DOG FORUM

A single-page feature on a canine health-related topic of general interest to all gun dog owners. Topics include nutritional needs during hunting season and the off-season, pre-season conditioning, field first aid, eye and ear care, travel considerations, foot and coat care, senior care, hydration and overheating, etc.

POINT, RETRIEVE AND FLUSH

These three departments are devoted to each of the designated type of sporting dog—pointers, retrievers and spaniels. Primary focus is on training and numerous references to training products are included—e-collars, beeper/locator collars, GPS tracking units, training dummies and bird launchers.

TRAINING & BEHAVIOR PROBLEMS

Dr. Ed Bailey, co-author of *The Training and Care of the Versatile Hunting Dog*, tackles reader questions on various field- and home-related issues and recommends specific training techniques and products he has found useful—everything from training equipment to dog crates and puppy housebreaking aids.

PARTING SHOTS

Joe Arnette wraps up each issue with a one-page “reflection” piece—sometimes humorous, sometimes nostalgic, sometimes bittersweet...and always compelling.

Recognizing that hardworking gun dogs are, in every sense, canine athletes expected to perform at their peak for long hours under arduous conditions, GUN DOG strives to provide readers with the most current information on all aspects of health care, conditioning and nutrition.

These topics are regularly addressed by John Holcomb, DVM, in his "Veterinary Clinic" column, and additional features on these subjects by noted nutritionists, trainers and other veterinarians appear throughout the year to ensure dogs are ready to put in the rigorous days afield their owners expect of them.

A special extended product section on all top brands of dog food, joint and dietary supplements, flea and tick control products and additional first aid items is included in the August issue, corresponding to that issue's hunting season "kickoff" and safety themes.

PUPPY ISSUE

March/April/May

The “Puppy Spectacular” includes one of our most endearing and enduring features—a multi-page spread of reader-submitted photos of their little pride-and-joys. Everyone hopes to see their puppy in the pages of the magazine, and this has become an annual highlight. Also, editorial content is geared toward choosing and starting a pup, preliminary training and selecting the right equipment to get the job done properly

Bird Hunter's Classic

September

The September "Bird Hunter's Classic" features our annual state-by-state quail and pheasant forecast and travel-related articles to help readers plan their season in the uplands, plus extended product sections on new shotguns, loads and chokes specifically developed for the uplands.

Wet & Wild October

For the dyed-in-the-camo duck and goose hunters of our readership, the “Wet & Wild” October issue emphasizes waterfowl hunting and retrievers with colorful and compelling stories “straight from the marsh” and special product sections on duck guns and loads, decoys, camouflage and waders.
